

How to do a Disney Cruise Line Reservation with Live Connect

I have CB and DTA open. I created the reservation in DTA. Then in CB, create a Res Card with Live Connect :

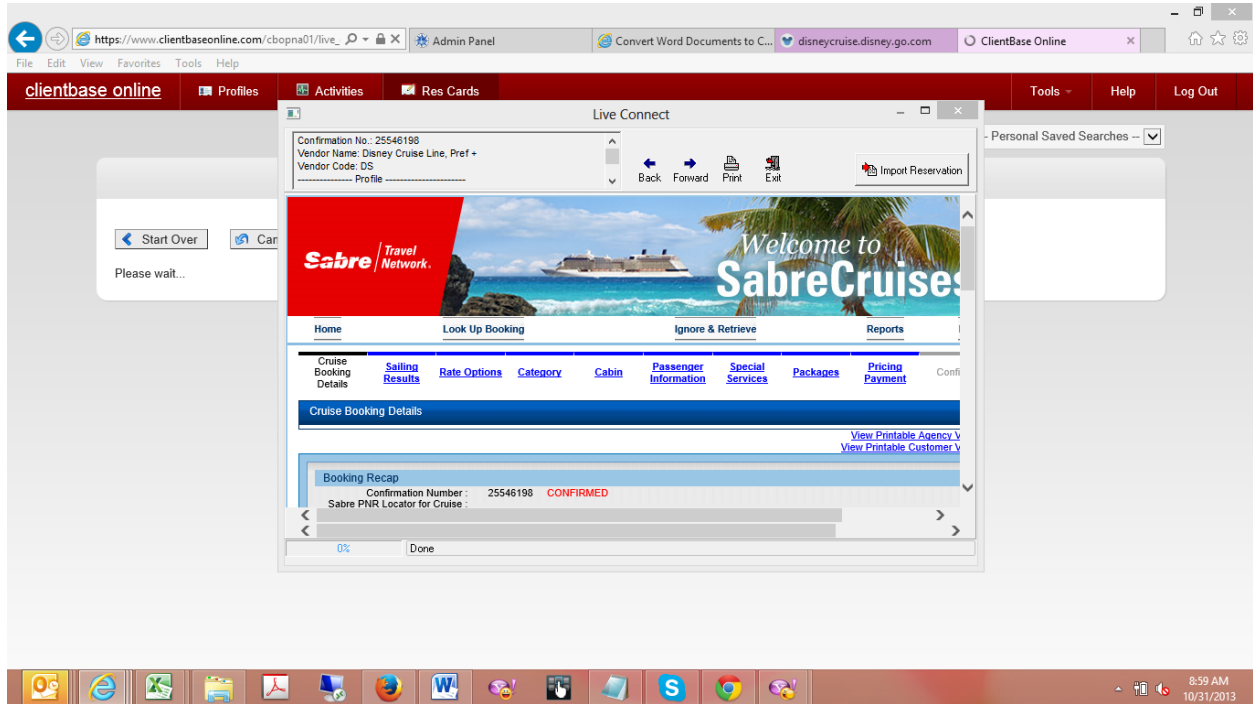

The screenshot shows the ClientBase Online interface. The main content area displays a Res Card for Erin Marsh. The card includes contact information (1222 North Oakes Street, Tacoma, WA 98406, USA), phone (+1 (253) 241-6515), fax, email (erin_marshall@yahoo.com), and website. It also lists interface ID (2532416515), primary agent (Char Berger), creation date (12/14/07), groups, and profile number (10172785). A dropdown menu is open over the 'Res Cards' section, showing options: 'Create Res Card --', 'Res Card', 'Res Card with Live Connect', and 'Res Card from PNR'. Below the dropdown is a table of Res Cards with columns: Res Card No., Status, Trip Locator, Trip Name, Create Date, Region, Trip Source, Group Name, and Bill to Address. Two rows are visible: one active (3000368) and one departed (2531822).

Res Card No.	Status	Trip Locator	Trip Name	Create Date	Region	Trip Source	Group Name	Bill to Address
3000368	Active	ZW8FM8	LAS Nov 2013	8/20/13	United States	IC's Own Marketing		Erin Marsh 1222 North Oakes Street Tacon
2531822	Departed	HH3649371-NC	Hyatt 11/16/09	12/31/09		Friend/Family		Erin Marsh Po Box 83165 San Diego, CA 9

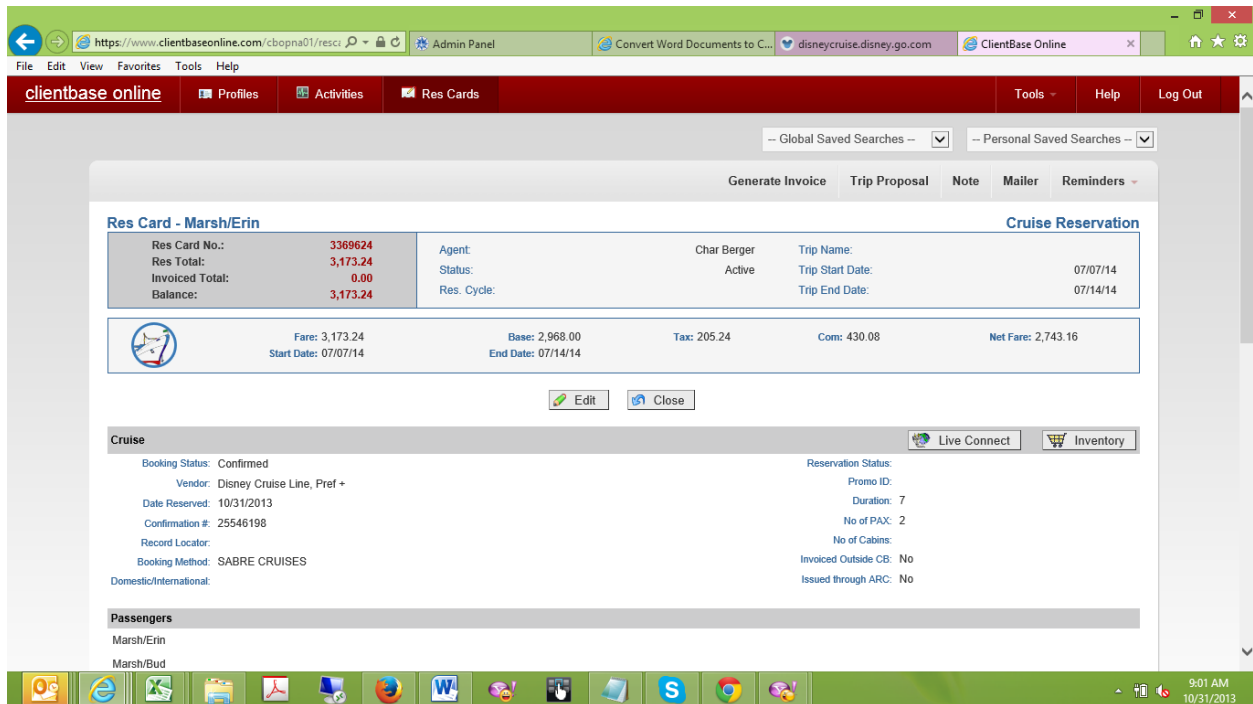

Please keep in mind that DTA is open and I am logged in. Choose Disney Cruise Line as the Vendor; and Sabre Cruises as the Connect To. Make sure you choose Cruise Co as the Branch:

The screenshot shows the ClientBase Online interface with the 'Live Connect Settings' form. The form includes fields for Vendor (Disney Cruise Line, Pref +), Connect To (Sabre Cruises), User Name, Password, Account No., Agency Code, Branch ([0]CruisingCo.com), and Agent (Char Berger). There are also buttons for 'Cancel', 'Import Existing Reservation', and 'Create New Reservation'. Below the form is a section for 'Import Existing Reservation' with a 'Confirmation No.' field containing '25546198'. The browser address bar shows 'https://www.clientbaseonline.com/cbopna01/live_connect_setting.jsp'.

From here I select import reservation:

Select Import Reservation:

And from here I make my adjustments.
